THURSDAY, OCT. 18, 1855.

Is there a Foreign Party — Disguised as it may be, the fact is apparent that the controlling induces in the Anti-American party is the foreign vote. We publish to-say, manother column, a statistical article showing the indice of officeary votes in the last Pier idential election. It is proverbial that figures cannother, and these figures demonstrate that the fore — population in the United State shave already, u less upparent by a union of the native-born citizers, the power of controlling the Presidential election. It is well-known, indeed it has been the best of the Pierce Adm istration party, that the whole foreign vote in the country was given to Mr. Pierce, and, as this foreign vote large years ceeds Pierce's major y, it is evolutional to the real state of the power of the property of the property

Mr. Pierce received a chundred at 1 fly-two electoral votes; if each of these S tes the 1 regn vote is larger than the m. Hy fr Pirce, and the aggregate of this fore; vote is m rethan twice as large as the aggregate ma prity for Pierce in these States. If one-half of this foreign vote had been given to his opponent. Pierce would have been defeated.

This will account in a great degree for the particular favors extended by the present Administration to foreigners to the disa variage and almost to the exclusion of malive-bor corrections. The present Administration to foreigners are the same probability of the surface of the present Administration to foreigners to the disa variage and almost to the exclusion of malive-bor corrections. The present Administration was plaged to maintain and be guided by the forms were the probability of the interest of the present Administration and the guided by the forms were the probability of the first means of the present Administration and the guided by the forms were the probability of the first means of the present Administration and the guided by the forms were the probability of this probability of the present Administration to foreigners of the present Administration to foreigners of the exclusion of malive-bor corrections of the present Administration to foreigners and the probability of the present Administration to foreigners to the distributions of the present Administration to foreigners and the probability of the present Administration to foreigners to the distributions of the probability of the present Administration to foreigners and the probability of the present Administration to foreigners and the probability of the probabilit zens. The present Administrat was plosed to maintain and be guided by the formeword principles of Democracy." During the cantass, all the changes were 1 stroady ruig, from Maine to Georga, upon the "e-word principles of Democracy." These principles appear to be so completely "time-word" at they are now altogether obliterated and are unterly forgotten by the preser social end in view, which is the present that is the present that is the present the present that is also before a large two and available principles are to the more than the present the present the present and is so that it is also before a large two and available passes the present that is a large two and available passes the present all is so that it is present that is a large two and available passes the present all is so that it is a large two and available passes the present that is a large two and available passes the present that is a large two and available passes the present that is a large two and available passes the present the present that is a large two and available passes the present that is a large two and available passes the present the present that is a large two and available passes the present that is a large two and available passes the present the pr were the fundamental law of the party. But the forincapable of serion as j rymen. But the forthe old world, he expresse a decided preferture of his native State to eclare foreigners incapable of serving as jirymen. But the foreigners themselves have now taken the coursof of the Democratic party wires and pull them to an entirely different tune. Mr. J. fferson is uncereamoniously tossed overboard and the war-cry of the party is "foreigners forever." Down with the native Americans!" Foreigners fill the best and most profitable government offices. Foreigners control our elections. F registers distance the policy of our government, and the opinions of Jefferson, the wise counsels of Macison, and the earner exhortations of Washington are unheeded in this insane laudation and exaltation of foreignism, to secure to a few unprincipled old party tricks and secure to a few unprincipled old party tricks and the location and the carner texhortations of Washington are unheeded in this insane laudation and exaltation of foreignism, to secure to a few unprincipled old party tricks and the locate state. The party at present opposed to the Americans and the control of the foreign and the success of the election of the latter. He control of the foreign and the control of the forei

There are doubtless still in the ranks of this Anti-American, this foreign party, a large number of good, housed, country-loving, well-meaning clurens, men who were really attached to the constitution and the Union, who believed in the purity and rectitude of old D mocratic principles, whose ears are deceived by the name of Democracy impudently assumed by this foreign party. They cannot much lo ger be blind to the real chair ter of the strange company in which they find themselves. The most temeadous efforts were made in this Ophir of the Pacific by the 'old liners' nothing was left tindone by them which might contribute to the defeat of the American party in California. The battle was fought in California triumphed. The battle was fought in California as it was in Kentucky and as it should be everywhere, upon the Philadelphin platform alone, unembarraned by any outside and unnecessary issues. This result establishes beyond question what we have repeatedly endeavored to impress upon the members of the American party that, wherever the plain principles of our national platforn are adhered to and industriously made known among the people, our cause will always be victorious.

The telegraph reports of the members of the American candidate for Goremor, at 4,000 over Bigler, the anti-Americans to the Luision and principles by andopting the American platform.
